

## **Resonance Technology at Its Finest: TerraTec's New Mobile Sound Station SubSession Traveller 1**

This authentic audio experience comes in a very small package, courtesy of resonance technology! The new mobile sound station SubSession Traveller 1 from TerraTec performs brilliantly as an external loudspeaker for mobile use. Housed in a stylish chassis, it connects to notebooks, mobile phones, PDAs, and MP3 players via a jack plug. The results are remarkable. Attached to a table or a desktop by means of an adhesive strip, Traveller 1 uses its surroundings as a resonant chamber, adding much-needed muscle to the puny speakers of conventional mobile phones and MP3 players. SubSession Traveller 1 hits stores in March sporting a price tag that reads 39.99 euros. The device comes with a high-quality rechargeable battery to enable true mobility. Fully charged, it frees users from the constraints of a power cord for up to 20 hours. SubSession Traveller 1 measures just 13 x 5 x 3 centimeters and weighs just 200 grams.

### **Details:**

- Rechargeable battery-powered speaker
- Up to 20 hours playing time when fully charged
- Unique audio experience thanks to resonance technology
- Ideal for mobile use
- Connects to netbooks, notebooks, PDAs, mobile phones, and MP3 players via a 3.5 mm jack plug

### **About TerraTec**

Launched in 1994 in the Rhine region town of Nettetal, TerraTec Electronic swiftly made major inroads in its target markets. Today the company is the German TV, video and audio card maker and one of Europe's premier multimedia enterprises. The companies portfolio encompasses offerings ranging from professional PC audio systems to TV / video solutions and hi-fi consumer products. As technology trendsetter, TerraTec charts the course of innovation in wireless home entertainment products, internet radios and digital television solutions for PCs and notebooks.
